MAN INSTANTLY KILLED IN FALL FROM TRUCK

L. F. Rowland, 35, Dies of Fractured Skull in College Park Accident.

L. F. Rowland, 35, of 211 Lyle avenue, East Point, was almost instantly killed Monday afternoon when he was thrown from the rear of a truck on which he was riding. The accident occurred near the corner of Rugby and Main streets at College Park.

Rowland died while being rushed to the Grady hospital, where an examination revealed that he had suffered a fractured skull.

He was an employe of the Holt Engineering Company, contractors for new gas line being constructed near College Park, and was returning home

from work.

According to M. F. Ellis, driver of the truck, Rowland and Sam Gilbert, another employe, were standing in the back of the truck. Ellis said that both Rowland and Gilbert lost their halance and fell to the pavement as he turned into a gasoline station.

Gilbert sustained minor bruises about the body and was dismissed from the Grady hospital after being given emergency treatment.

Funeral arrangements for Rowland will be announced later by Howard L. Carmichael.

Stock of Local Banks Continue Steady Advance

The advance of Atlanta bank stocks The advance of Atlanta bank stocks continued Monday, latest quotations revealed. The Atlanta-Lowry stock was sold up to \$125 Saturday and \$130 was being asked Monday with little, if any, available at that price. This stock, of \$10 par value, was selling at approximately \$90 10 days ago before the rumor of the Lowry and Fourth National merger was circulated.

The Fourth National stock sold up to \$210 at the end of the week and it was unofficially reported Monday that one block changed hands at \$235. This stock was selling at \$177 10

This stock was selling at \$177-10 days ago.

In sympathy with stock of the merging banks, the stock of the Citizens & Southern National bank is continuing a steady rise. According to Monday quotations this stock is being sold at \$77.50, 15 points above its price of more than a week ago.

A 33-point gain in the Fourth National bank stock means an enhancement of \$2,760,000 on the 70,000 shares; the approximate 35-point gain in Atlanta and Lowry means that the 400,000 shares are worth \$14,000.000 more than they were and the 15-point gain in the Citizens and Southern means an enhancement of \$7,500,000 in the 500,000 shares.

DUGGAN CONFERS ON POLL TAX FUNDS WITH GOV. HARDMAN

Dr. M. L. Duggan, state superintendent of education. Monday conferred with Governor L. G. Hardman with regard to the disposal of pollitax revenues which are claimed by the state educational department.

Dr. Duggan asked the governor that he consider his contention that the tax is specifically allocated to the common schools by the constitution. The tax amounts to from about \$325,000 to \$400,000 annually.

The state superintendent of education takes issue with Attorney General Napier on the disposal of the tax. The attorney general believes that it is included in the regular appropriation to the common schools, while Dr. Duggan contends that it is an additional sum due them.

Governor Hardman, to whom the question has been submitted, has requested opinions from the attorney-seneral and from other lawyers but quested opinions from the attorney-general and from other lawyers, but has not intimated that any conclu-sion has, been reached.

- but newer, more progressive ideas

N ABSOLUTE refutation of the old saying, "A prophet is not without honor save in his own country," is clearly demonstrated in the growth and success of the Rogers

group of stores At the head of this organization are men home men—who have given practically all the years of their mature life in building this organization from one small grocery store to the South's largest pure food chain—to four hundred splendid stores and a hundred and ninety modern markets.

If not the honor, certainly the credit is due them for the success achieved—for the progress made—and thousands upon thousands of Rogers' friends and patrons withhold none of that credit—that honor—due the Georgia men who have built the Rogers group of stores to a fifteen-million-dollar business annually.

Here at home-in Atlanta-in Georgiaand in adjoining states where Rogers' stores are serving thousands—come words of praise and commendation for the real helpful service Rogers, Inc., is rendering.

Having founded and built this business, it is but natural that this same group of Southern men should be interested-vitally-in holding to it, in controlling its future policies, and in sharing in whatever profits it may acqure.

And so it is-

That Scott W. Allen, reared in Atlanta, and now active president, who began as a boy with the Rogers' stores thirty years ago, sits at his desk from day to day and advises and directs the policies of this organization;

That Harold O. Rogers, son of the founder, a vice president of the organization, is in daily touch with his work in connection with the retail management of Rogers' group of stores. He entered the Rogers organization as quite a young man upon the death of his father, some fifteen years ago, and has been one of its constant advisors and directors;

That C. H. Moore, vice president and general manager in charge of retail store operations, is making his acquisition to the company invaluable. Mr. Moore, although not with the company as long as some of our other officials, has spent his life in the pure food line, and is thoroughly identified with this organization;

That Robert J. Hudson, treasurer of the Rogers organization, continues his splendid and valued services with an organization with which he has been identified since a young man. Starting thirty years ago as a Georgia country boy in a Rogers' stores, his connection has been one continuous period of useful activity with Rogers, Inc.;

That B. C. Sale, another Georgia product, and now vice president and secretary, has built for himself a loval record that justifies his official title, and is now also in charge of the merchandise buying department. His connection with the company began some eight or ten years ago in a clerical department.

On and on we could go, giving the long periods of useful service of many men who are still closely identified with the organization.

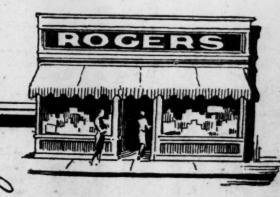

For instance, we picture on this page, C. H. Ivy, superintendent of a group of Atlanta stores, who was a pioneer with the founder of this organization thirty-six years ago; we show Joseph Shields, whose twenty years of service has been one of success with this organization, and who is now in charge of buying in our fresh fruits and produce department; Clifford R. Barnett, who has rendered sixteen years of service and is still active at headquarters, in charge of the personnel department; W. A. Gatlin, born and reared in Cobb County, for nearly five years in charge of our fresh meat department; Robert B. Jackson, a Georgia product, assistant treasurer, is entering upon his tenth year with the organization, and is rendering valuable service in this responsible position, and Press Huddleston, for six years advertising director for the organization.

All these men-and hundreds of others-all Georgia or Southern men-continue to maintain their active connection with the Rogers organization, thus keeping intact the same personnel that has brought such signal success to it.

Newer and more progressive ideas are the outcome of years of experience and the study of more scientific methods. These, naturally, have been established, and are a part of the growth of Rogers, Inc.

when the wastern t Recently, through a friendly working relationship with a similar group of stores, such as ours, there has come to Rogers, Inc., greater opportunity for service to the public—greater ablity in volume buying—bringing savings to Rogers, Inc., which are in turn passed along to our patrons. This, in a word, tells the story of the still greater things we hope to be able to do for our friends and patrons, and should set at rest any ideas of a material financial change in the Rogers organization. -Mundhamphamphamphamphamphamph

Woman's Division Hears Address On Latin America

Mrs. Helen Douglas Mankin, formerly of Atlanta, who for the past two years has been residing in South America, was the principal speaker at the monthly meeting Monday night of the Woman's Division of the Atlanta Chamber of Commerce.

Mrs. Mankin gave an interesting description of the life of women in Latin-America and living conditions outside the capitals of South American countries, comparing them with American living standards.

"The lives of South American women are narrow," Mrs. Mankin said, "and a great number have no education whatever." Mrs. Mankin added, whoever, that the introduction of moving pictures is playing a big part in broadening their individuality and that eventually it is believed that their living conditions will be improved through this medium.

"In the Latin-American countries," Mrs. Mankin stated, "there are only two fields open to women—social and missionary. In the work of a missionary a woman has some definite work that she is interested in and that is about the only thing that keeps her satisfied."

Body of J. W. Matthews Found With Revolver Clutched in Right Hand.

J. W. Matthews, of Bloomington, Texas, was found dead in his room at a hotel near the Terminal station early Monday morning, of a bullet wound near his right temple. A .38 caliber revolver, one chamber of which had been fired, was clutched in his right hand.

Matthews' body was discovered by a maid, who entered his room about 9 o'clock. Two hours previous, it was said, the sound of a shot was heard by a roomer in the hotel, but was attributed to the backfire of a passing automobile.

Situation Called Satisfactory.

In the Allen report it is pointed out that "the present traffic situation in Atlanta is about as satisfactory to all parties as it is possible under the present layout of the city, and we feel that the present traffic committee and city council have been giving due diligence and effort in trying to regulate the traffic in Atlanta. Our recomgence and effort in trying to regulate the traffic in Atlanta. Our recom-mendation is to leave the parking sit-uation as it now exists, and from the study of the situation the committee will make chanages from time to time as might be necessary."

The report states further that "Atlanta has tried non-parking on Whitehall and Peachtree streets, only to give it up, realizing that it did not speed up traffic to any appreciable extent."

extent."
"It only made our great retail district look like a deserted village," it is added, "with only laundry wagons, ce wagons and freight vans using the curb, where the customers' cars should be. It is plain to anyone that two or be. It is plain to anyone that two or there trucks or ears parked in a block will as effectually prevent the flow of two lines of traffic quite as much as a full line of cars parked at the curb. Situation Not Acute.

"The traffic and parking situation in Atlanta is not acute. And it is very much better than it has ever been since the building of our new viaducts. Certainly conditions here re no worse than in other thriving merican cities.
"The retail business of Atlanta

reatly in need of more and better aces to park rather than less. Ther such a thing as regulating traffic nd trade to death."

In submitting the steering commite's substitute report, Mr. Whitaker

says:
"The steering committee, while recognizing that Mr. Allen's report is not without merit, regrets exceedingly that it cannot concur in every point. It also feels that, while no doubt this was unintentional, all the facts gathered for the use of his committee were not given full consideration. For this reason, my committee has drawn up its suggestions, presenting recommendations, which, to its mind,

seem more in accord with the facts and the general public interest.

Free Movement Chief Consideration.

The free movement of traffic and the convenience of the traveling pubthe convenience of the traveling public should receive first consideration, as in so doing many times the number of 'people may be served than are accomodated by street parking. While we realize that some handicap may be placed on the retail merchant by prohibiting parking on main thoroughfares, certain merchants have found it expedient to excell the consideration. fares, certain merchants have found it expedient to prohibit parking in front of their establishments, in order to give free access to their places of business by patrons, while others have found it to their advantage to provide off-street parking for their customers.

"After a careful study of the traffic flow map, time count charts and of other studies incident to traffic movement, we recommend that the following streets be made non-parking:

"Spring from Nelson to Marietta; Forsyth from Alabama to Peachtree; Whitehall and Peachtree from Mitchell to Cain; Mitchell from Spring to Forsyth; Walton from Cone to Proad; Ellis from Carnegie Way to Peachtree; Auburn avenue from Peachtree to Pryor; Decatur from Peachtree to Pryor.

Indeterminate Sentence Statute Is Attacked In Supreme Court Case

The legality of the sentences any men now serving prison and naingang terms was put into ques-on in the supreme court Monday in a attack upon the validity of the an attack upon the validity of the indeterminate sentence law.

An argument that the law is unconstitutional was advanced by Wallace Pierce, Augusta attorney, in the cases of F. E. Thomas, C. C. Johnson and Ed Petty against the state of Georgia.

Mr. Pierce's argument was founded on the constitutional provision that the legislature and the judiciary are co-equal in their powers. The leg-

The suit, which is of a friendly nature, was instituted in Fulton superior court when the comptroller general declined to sign a warrant drawn under the act by the governor. A decision as to whether or not he should sign such warrants will involve a determination of the constitutions ality of the act.

If the law is upheld, it is understood, the state will anticipate some \$2,000,000 of gasoline tax revenues, with which to obtain a similar amount of federal funds which are available when matched by state funds.

The complement of a full bench of all six supreme court justices hearing the case was said to be distinctly unusual. It is understood that the court, which gave the case precedence over other cases, will render an early decision.

The text of President Hoover's address at the celebration of the 50th anniversary of Thomas A. Edison's invention of the incandescent lamp was as follows:

This ceremony is a part of the celebration of Mr. Edison's invention of the electric lamp. It is also the dedication of the Edison Institute of Technology, the gift of Mr. Ford. Both are, in fact, national tributes to Mr.

The multiplication of the amount of light in the world a thousandfold is worthy of celebration, for darkness is a forbidden limitation upon righteous

Variety of Uses.

But the electric lamp has found infinite variety of unexpected uses. It enables us to postpone our spectacles for a few years longer; it has made reading in bed infinitely more comfortable; by merely pushing a button we have introduced the element of surprise in dealing with burglars; the surprise in dealing with burglars; the goblins that lived in dark corners and under the bed have now been driven to the outdoors: evil deeds which in- ta to the outdoors; evil deeds which inhabit the dark have been driven back into the farthest retreats of the night; it enables our cities and towns to clothe themselves in gaiety by night, no matter how sad their appearance may be by day. And by all its multiple uses it has lengthened the hours of our active lives, decreased our fears, replaced the dark with good cheer, increased our safety, decreased our toil. creased our safety, decreased our toil, and enabled us to read the type in the telephone book. It has become the friend of man and child.

In making this, as in his other great inventions, Mr. Edison gave an outstanding illustration of the value of modern method and system of inventions. standing intustration of the value of modern method and system of invention, by which highly equipped, definitely organized laboratory research transforms the raw material of scientific knowledge into new tools for the

Alderman W. Guy Dobbs, of the seventh ward, offered a substitute that the inspector be appointed by the mayor and work out of the mayor's office.

This aroused the police committee and a substitute, proposing that the mayor appoint all major department heads, immediately followed.

The latter paper was voted down, and on motion of Councilman Harry York, of the sixth ward, a member of the police committee, the entire matter was referred back to the police committee, the entire matter was referred back to the police committee, the factor of the state and reported to the court that the deceased left three childred but no widow.

Mrs. Owens and Logan Owens were married at Atlanta, Ga., in 1896. Owens left Atlanta in 1916, but did not take his family with him. In 1917 he settled at Cleveland and obtained a divorce from his wife on the ground that she had wilfully described him in 1900.

Hollowing Owens' death, Juriman C. Hudson was appointed as administrator of his estate and reported to the court that the deceased left three childred but no widow.

Mrs. Owens challenged the proposed distribution of the estate, claiming the divorce had been obtained illegally.

The probate court decided in her favor and recognized her as the wid-ow. The appellate courts, however, sustained the divorce decree and re-stored Hudson as administrator.

The Cow is off the Track!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Railroads have safely passed those danger signals of prejudice which caused folks to look upon them with fear. Holding aloft the semaphore of progress AMERICAN INTELLIGENCE cleared the track and, today, millions travel in ease and security.

"toasting did it"-

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

TEARS ago, when cigarettes were made without the aid of I modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended-"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"-LUCKY STRIKE'S extra secret process-removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"My despair was so great I could have cried. The good cheer and merry happiness of others only mocked at my condition. I had begun to wonder why life could be so cruel. No appetite. No strength. Skin blemishes always embarrassed me. Aches and pains coursed through my body. I wanted to restore my health and live. What was I to do? ... happily the day came and I found the right road to Health when a friend recommended S.S.S,"

You may be one of the thousands with a low blood count-to this may be attributed "run-down" systems, skin troubles, and even more serious ailments.

Did you know that every cubic millimeter of the normal, healthy person's blood should contain about 5,000,000 red corpuscles? They are the tiny red particles which give blood its color and are carriers of nourishment to the cells of the body. Rich, red blood wards off disease. It is very dangerous to let the blood count remain below normal.

With an increase in the red-blood-cells you will be on the right road to Health. This is Nature's way to body power and to clear skin. Naturally, with your strength restored, it is easier to fight disease and infection; to enjoy your food and to sleep soundly. When firm flesh takes the place of that which was once flabby, you will feel strong-your nerves will become steady-more happiness and friends will follow.

You owe it to yourself and friends to give S. S. S. a trial. It helps Nature build rich, red blood. For more than 100 years S.S.S. has been helping people regain and retain their strength and charm. Thousands of users have testified to its benefits in unsolicited let-

Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle.

relief than anything else. It's no trouble at all to mix and costs but a trifle. Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make a full pint. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It is also absorbed into the blood, where it acts directly on the bronchial tubes. At the same time, it promptly loosens the germ-laden phlegm. This three-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palathable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief

Pimples Cleared Away

Muncie, Ind.—"Resinol Soap has worked wonders for me. I had been bothered for a few years with pimples on my face and had tried various soaps and lotions in an effort to overcome this condition, but without success. Resinol Soap was recommended to me, so I tried it and have used it ever since. It not only restored my skin to a healthy, normal condition, but it has kept it so."—
(Signed) Mrs. J. O. Dailey.

Resinol is recommended by doc-tors everywhere for almost all types of skin disorders—eczema, rashes, pimples, cloudy complex-ion. Spread on a little Resinol Ointment at night; then wash off with Resinol Soap and hot water in the morning. Dothis once a day. Try it yourself. At all druggists. Described by Feodor Chaliapin, the great Russian basso, as "a musical miracle." the Kedroffs appear to have miracle." the Kedroffs appear to have justified this unique praise. Before their origin, some critics did not regard quartet singing as one of the highest forms of musical expression because of the difficulty of perfecting it. Long years of devotional work was spent by the Kedroffs before they appeared before the public. Their sole aim in these years of practice was to attain the technical perfection of a group of stringed instruments. a group of stringed instruments h as the internationally famous

Flonzaley quartet.

This long course of training was also aimed at unity of interpretation. No one voice ever gains ascendency over the others. Musical critics, after the most minute observation right at the stage, could not discover which voice belonged to any one of the singers. The result is a succession of musical nuances not heretofore developed in quartet singing.

The Kedroff quartet is composed of Professor N. N. Kedroff, its leader and founder, formerly of the Imperial Conservatory of Petrograd, Professor C. N. Kedroff and I. K. Denissoff and T. F. Nasakoff, both of the imperial opera.

Senate Refuses To Restrict Proposed Duty Increases To Agricultural Products

Motion To Recommit work have been secured to constitute the faculty.

Washington, October 21 .- (AP) - Aftrejecting by 64 to 10 a motion recommit the tariff bill to limit proposed increases in duties to agri-ultural products, the senate agreed oday to begin consideration of the controversial rate schedules tomor-

It was the second time this session that the senate defeated a move to restrict tariff revision exclusively to the farmers' interests, although the irst vote, taken last June on a proposal by Senator Borah, republican, Idaho, lost by a single vote—33 to 38.

The motion today was made by Senator Thomas, democrat, Oklahoma, who asserted the pending bill represented a general revision instead of a limited one as recommended by President Hoover. Enactment of the measure in its present form, he said, would be tantamount to a declaration of "economic warfare" on the farmers of the country.

Both democratic and republican independent leaders who voted with Borah last June, took the flooragainst the Thomas proposal, arguing the contest over the administrative rovisions and was in a position to trace of the georgia Civitan organization gave short addresses, although the program was not formal.

About 75 delegates and visitors registered this morning following which an executive session of the board of trustees was held.

-The Southern Institution has shared the coming-out parties of Atlanta's debutantes since the courtly days of the brave sixties. Bustled-brocades and spangled fans . . . passementerie and willow plumes . . . hobble skirts and picture hats . . . the strident flapper brevities . . . all have gone out from Rich's to bow the season's debutantes into the world of society.

-Tuesday Fashion Day at Rich's will fling wide its portals to the 1929 Debutante Club . . . and all the splendid, glamorous fashions therein will flash a smile of welcome to the season's buds. Glittering evening fashions will go on parade . . . metal brocades, crisp taffetas, swishing satins and velvets for the Halloween ball and all the ensuing festivities.

The "Harvest Moon" in Golden Satin . . .

CAUTION.

BY THORNTON W. BURGESS.

In all you do be circumspect, For danger you may thus detect. -Striped Chipmunk.

has a great many enemies always watching for a chance to catch him is bound to have many shocks. But Striped Chipmunk never had a worse one than he did that morning when Flip the Terrier did him a good turn.

No, sir, Striped Chipmunk never ha a worse shock than he got that morn

You see, it was this way. Striped Chipmunk had been working to fill his storerooms. He had been gathering seeds, stuffing his pockets in his cheeks and carrying them back to store Striped Chipmunk has had a great many shocks in his life. Shocks are a part of the lives of all the little furred and feathered people. They have them every day. Of course, some are worse than others. Any one who have constructed any control of the course of the cours in his cheek pockets, and cautiously

as he returned with an extra big load in his cheek pockets, and cautiously peeked out of the grass to see that the tway was clear to his hole on the edge of the driveway in Farmer Brown's yard, he saw Flip the Terrier make a sudden rush. In an instant he saw who it was that Flip was after. It was Shadow the Weasel.

It seemed to Striped Chipmunk that just for a wee space of time his heartactually stopped beating. Yes, sir, that is the way it seemed. And then when it did start beating again it thumped so that it seemed to him it must be heard. You see, Shadow the Weasel is the one enemy that Striped Chipmunk fears most. Wherever he goes Shadow can follow. He cannot squeeze into a hole too small for Shadow to squeeze in after him. So, when he saw Shadow so close to his home, Striped Chipmunk received a dreadful shock.

Striped Chipmunk held his breath as he watched Flip chase Shadow and finally saw Shadow disappear over by Farmer Brown's barn. The way was clear now. He could take that load of seeds into his storehouse. But he didn't do it. Instead of that he emptited his pockets and made a little pile of seeds beside a stone. Then he sat down where he could watch the place where he had last seen Shadow.

"I wonder how much that fellow found out?" thought Striped Chipmunk. "He was going right straight toward my hole. But perhaps he hadn't seen it when the dog rushed at him. I wonder if he had discovered my scent anywhere around? If he hadn't, and he hasn't found my hole, I am as well off as I was before. But it gives me the shivers to think what might happen to me if that fellow should come this way again. I don't think I'll go home for a while. I'll stay away from it. Shadow never stays in one place very long and if he doesn't find any fresh scene of mine to lead him to my home, he may go off." mine to lead him to my home, he may

mine to lead him to my home, he may go off."

So Striped Chipmunk sat for the longest time perfectly still right where he was. He saw nothing more of Shadow, so at last he ventured to go back to the old stone wall along the edge of the Old Orchard. He had a lot of hiding places there and although that was just the place that Shadow would be likely to search for him, he felt that it would be safer for him to remain there the rest of the day than to take a chance of giving away the secret of his home. Beside, from the top of that old stone wall he could very nicely keep watch. So he spent the rest of the day there. Toward dusk he returned to his home, but he didn't return in his usual way. He went 'way around and approached it from another direction altogether. That is how cautious Striped Chipmunk was. munk was. (Copyright, 1929, for The Constitution

GUARD THE DANGER LINE

BABY TEFTH are vitally important-many do not realize how important they really are. Upon them depends the sound development of the permanent teeth and, to a large extent, the development and pleasing shape of the jaws. No mother can begin too soon the proper care of these "first" teeth—for it can mean much to the child

Protect them carefully . . . especially at The Danger Line—that thin, delicate edge where gums meet teeth, and where so much decay occurs. Be certain the dentifrice you select can not only clean, but can neutralize the acids of decay. Squibb's Dental Cream is made with 50% Squibb's Milk of Magnesia, more than enough of this safe, effective antacid to furnish protection.

And Squibb's is pure. It contains nothing that could cause the slightest harm if swallowed. No harsh astringents, no grit. Children love its taste. It costs only 40c for a large tube at are drug store. Get a tube. Its regular use will help your child have good teeth through life.

LARGEST PLANE IN WORLD TAKES 170 FOR FLIGHT

Ap, Switzerland, October 21 .-(United News.) - The three-deck airplane, Dornier Dox, ushered in a new era of heavier-than-air flying today by rising majestically from Lake Constance with 170 persons aboard and soaring at various altitudes for nearly an hour before dropping to a erfect landing. Three records fell before the mighty

raft which Dr. Claudius Dornier built to demonstrate the future possibilities of planes for transport, especially over the ocean.

First, the Dornier Dox bore 110

Second. the Dox lifted a total wight of 52 tons, of which the passengers, cargo and fuel made up 17 tons.

Third, the take-off was made in 50 seconds, much faster than the Dox ever rose from the water before.

Pictorial Echoes From Grant Field Saturday

How Mizell Romped

A Queer Play

Oglethorpe has two glorious mo

ments to which it looks back with

to score a touchdown and give Ogle-

lina's fond dream of a perfect year in

victory over Tech.

Above are three interesting pictures salvaged from the mass of negatives brought in by Associated Press staff photographers who worked at Grant Field Saturday when Tech flashed new found power and scored a decisive victory over the Florida 'Gators.

At the left Warner Mizell is shown skirting the Florida

right end on a 30-yard run. The way Warner has outstepped the Florida defense clearly shows the old speed is in his heels once more.

The center photograph shows an incident that the officials missed. Stumpy Thomason jumped for a forward pass and while in midair was tackled by Crabtree. The ball is shown by the arrow. This might have been ruled interference, but then officials cannot possibly be 100 per cent accurate

At the right is shown Mizell in center of circle stepping through a wide gap in the Florida rush line laid open in a workmanlike manner by the Tech forwards. Such rush

line work as this gave Tech the victory. Dale Van Sickel, the Florida end shown just outside the circle, has successfully used his hands to ward off Dunlap's (No. 64) attempted block but he is too far away to catch Mizell. At the extreme right note Vance Maree blocking out the

It was just one of those off days, they declared, and the dreams. would be back in the headlines as a dangerous conference foe within a few days.

Coach Bachman was lavish in his praise of the Tech Golden Tornado that wrecked his own title hopes in that wrecked his own title hopes in the first quarter of the game.

"They worked smoothly in every de-partment," he pointed out. "Pass-ing, kicking or bucking were all the same to them. The well-drilled men fulfilled each asignment meticulously and I am glad that it was to such a splendid fighting team that Florida.

ment, that does not detract from the glory that belongs to Tech for possessing an almost letter perfect football machine.

Florida fans were lavish in their praise of individuals, and Georgia Tech supporters joined in hearty agreement when the names of Goodbread Crabtree, Van Sickel and Jimmy Steele were mentioned.

Lack of passing was blamed for Florida's extremely poor showing. Linemen were letting Tech men in at the passers too soon and four out of five attempted passes went straight into the hands of Tech players, to give them the ball deep in Florida territory.

BACHMAN'S WISDOM. The wisdom of Coach Bachman in drilling his men in kicking last week was admitted, when Florida punted to safety time after time, after the poor start threw them off balance. Spectators, who were familiar with Bachman's methods, wondered at the absence of line plays taught the var-sity especially for Tech, many of which were not even attempted against

In spite of the great performance of the University of Tennessee's football team in defeating Alabama Saturday, one shudders as he peers at their future.

Dire calamity lurks on their trail. Some uppity team is going to knock them clear out of the ring as sure as taxes.

The friends of the University of Tennessee should take steps to kill off such talk. They should deny the report. They should even go so far as to declare that no post-season games would be played by the Vols under any circumstances. That might take off the curse.

STRIB'S FIRST OPPONENT.

Young Stribling has been matched to fight Primo Carnera, the Italian heavyweight, in Paris, October 31, under the management of Jeff Dickson.

Carnera will outweigh Stribling 100 pounds. One hundred pounds! Imagine that!

Carnera stands six feet, TEN inches and has a reach of 85 inches. All that data reveals that this match will set a record than ever if it can dangle the scalp for inequality in physical proportions probably unequalled in the history of the modern ring.

IF HE FALLS ON STRIB.

Carnera opened his campaign in England by knocking out Jack Stanley, one of the typical British round-heel heavyweights, in two minutes.

British boxing critics hail Carnera as the next heavyweight champion of the world. They say he is no false alarm; that he can hit hard with his left, has vastly more speed than Jess Willard, and is a master of the uppercut at close quarters.

Pa Stribling agreed to fight any man in the world when he made his contract with Jeff Dixon. I wonder if he had any Only one new play of a spectacular nature was introduced, that of the double lateral pass, which scored Florida's single touchdown. The same play was attempted another time, but filled to do much second Described to the control of idea he was likely to have to meet this "two-man-boxer," or if he had ever heard of him. Stribling is certainly welcome to that job. Even if Carnera is a dub it will take a lot of whittling to buke sheduled three straight games.

Waugh Thought Lost for Florida

Athens, Ga., October 21.—Armin Waugh, Georgia's flashy little halfback, will probably see the Florida game from the side line because of an injury received in the North Carolina game. About 10 minutes before the game was over, Waugh received a blow on the leg at the knee and although he played the rest of the game, the injury was severe enough to force the little halfback to use crutches today. Waugh will be missed in the Florida game as Georgia is 'making an effort to wipe out a stinging defeat which the Gators handed the Bulldogs last year in Savannah.

Big Six Elevens Mix Saturday

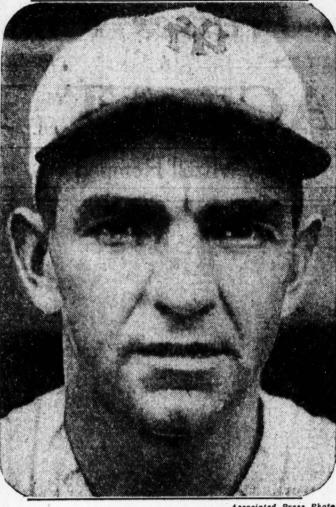

Kansas City. October 21.—(P)—
Nebraska and Missouri tangle in Columbia Saturday in a Big Six conference football game which should rank with the best in the midwest.
The two schools are bitter rivals. In the three seasons prior to 1928 Missouri nosed out the Huskers when all indications pointed to a Nebraska victory. Last year Nebraska got revenge with a crushing victory in Lincoln. Conference fans are predicting the victor in this week's game will be the 1929 champion of the circuit. Nebraska, 1928 champion of the conference, will be starting its defense of the title in the Missouri game, having won, lost and tied in intersectional contests. A scoreless tie resulted with Southern Methodist university. Syracuse was beater, 13 to 6. Pittsburgh beat the Cornhuskers last week in Lincoln, 12 to 7.
In two games the Missouri Tigers have scored 39 points and held opponents—Iowa State and Drake—scoreless.

WHERE WERE THE POLICE?

"A beautiful young lady told me of an occurrence at Grant Field Saturday that calls for an investigation by the legislature.

She said that behind her and her date were sitting two women who kept up a constant chatter of small time gossip all through the game. The two hens had nearly driven that immediate section of the west stand into nervous prostration.

Stumpy Thomason leaped into the air, pulled down the forward pass of the century and sped away for a touchdown. The crowd was stunned and in the moment of silence one of the chattering women uttered in an excited tone:

"And it takes two and a half vards just to make the blouse."

The beautiful young lady added:

"And a man on our left got up and I just can't repeat what he said to those two women.

The moral is: Let's take steps and adopt measures to prevent such waste of good seats on the 50-yard line.

In the Yale game Georgia was hawking the ball. There was one very important loose ball. It was behind the Yale goal line and it was very important that someone get over it.

Vernon Smith got on the football. It was a Georgia touch down and one of the turning points of the football game.

The present season has been one of the most disastrous in history for Big Three prestige. Unless Harvard can turn in a victory over Dartmouth saturday and complete its season with wins over Florida, Michigan, Holy Cross and Yale the 1929 Big Three teams will be remembered as secondrate machines.

Stanford looked particularly impressive in defeating Oregon State, 40 to 7. In this game Coach Warner's men used the same play three times for touchdowns. This was a forward pass to an end, followed by lateral toss to a halfback. Sometimes the forward pass is thrown as far as 30 yards down the field, which makes it a pretty play to watch. (Written during the late World Series.) I think that in some country town, When keen October breezes blow, A tall man, silent bearded, brown, His hat above his eyes pulled low, Reads the wild tale the scoreboards show Of giants battling for a crown, Of Cub and Mackman, hit and run. -Why should I shiver in the sun? A touch of winter in the air Prickles and tingles in my hair— What has become of Shoeless Joe?

Shoeless Joe Jackson! How the mob Rose up to cheer him, long ago! Lajoie, Wagner, Speaker, Cobb, Mathewson, Bender-one with these. Oh, lost star of the Pleiades! Hard is the heart that feels no pang Of pity for his pride brought low. the brave song his black bat sang! What has become of Shoeless Joe?

Luckless and loved, immortal, lost, Blackened and shamed forever . . . Yes, A sinner, let him pay the cost. His birthright bartered for a mess Of poor red pottage? Even so Let us forget his youth forlorn, How much, how much his boyhood lacked; Heap on his proven guilt your scorn, A trickster taken in the fact. -Let us write only, in our pact,
That our own deeds be judged but so . . . Needing no mercy, merciless, Come, let us judge him, Shoeless Joe!

The Decisive Tilt.

The battle between Stanford and Southern California at Palo Alto on Saturday will be one of the most decisive contests in the football round-up of 1929. They are not only two of the strongest teams on the coast, but two of the strongest in America. The winner will have a great chance to finish in front of the far west parade, although California still has something to say about this later on

Stanford and Southern California have exceptional material that is well coached.

Howard Jones won from Pop Warner a year ago, but the job of hooking Pop twice in a row is none too simple. At this next meeting he will give the Trojans everything he has, and if South-ern California can win, Notre Dame and Carnegie Tech may as well look out for serious trouble. Both teams are closely allied with mid-western and eastern football

his season, as Southern California tackles Notre Dame and Carnegie Tech, ile Stanford meets the Army again. Warner has most of his star backs on hand who ran wild against the Army last fall, although Biff Hofman is among the missing. Herb Fleischhacker is on hand again, and he is big enough and fast enough to

fill two gaps. Southern California has a star back in Russ Saunders, while both lines are big and fast. If there was room enough for the crowd this game would draw 200,000 spectators, and that is breaking it gently. A Tip From Texas.

Dear Sir: While eastern and western teams are using the spotlight, let a Longhorn from the southwest butt in. The Texas University Longhorns, winners of the Southwestern conference title, are putting a powerful team into the field this year. They will be good enough to be con-

sidered in the national ranking class, up with any of the leaders.

These Texas Steers are headed by Dexter Shelley, the fast and versatile 195-pound back who can pass, kick, run, hit a line, receive and run interference. He is on a par with Cagle and Marsters, and you know where they stand.

Watch the Longhorns and Shelley.

It might be recailed in this connection that S. M. U., after almost nailing the Army last October, finished only third in the Southwest. And this fall, with a green outfit, S. M. U. tied

Clemson and the Vols, while Tulane gets Georgia and L. S. U.

GOOD SCHEDULE.

Tennessee's schedule is very attractive indeed. They have already beaten a rather dull Alabama team. They will meet a smarter but less powerful team in Vanderbilt. They will meet a kard-fighting eleven in Kentucky. The Kentuckians are not lacking in power and they don't care for the Vols at all. It is Kentucky's big grid battle of the year since Central passed out as a formidable opponent. The Vols have ample time to prepare for each game.

The attractive feature about the aschedule of the Vols is that they have only Vanderbilt and Kentucky left who are dangerous. The other teams in the present list of undefeated have some of the already defeated clubs can allow the already defeated clubs can allow the vols on the third Saturday. And no one would figure the Jackets or the Tide as dead meat. Oh, no. indeed not.

BRISK makes a mint julep shave because of the things it does on your face and on your rits. First of all, BRISK lathers instantly and freely in hot or cold water-and plenty of lather is the first requirement of a good shave. BRISK absorbs two to three times the amount of water that old fashioned shaving cream does. Hence it makes two to three times the amount of lather-and a lather that stays moist on your face until you finish your shave!

Lubricates The Cutting Stroke The rich, moistureful lather quickly "cuts" clean cutting. Moreover, it lubricates the cut-ting stroke of the razor. You know how a bit of soap on a saw cases its passage through a log-well, that's how BRISK smooths the path of the razor. The razor does not "pull" or bump along over your face, but glides sweetly over the skin, cutting down the hair cleanly and closely

and almost without effort. Every stroke of the razor does a clean job. No need to go over and over the same spot and "butcher" your face to get a close shave.

BY CLAUDE A. JAGGER, Associated Press Financial Writer. New York, October 21.—(P)—Powerful banking support was thrown into the stock market today to check what threatened to become one of the most threatened to become one of the most impact all history. In a wild rush of selling, prices of leading shares tumbled about 5 to 15 points during the morning and early afternoon, but by mid-afternoon the decline was checked, and a moderate rally set in which and a moderate rally set in this work have to the session was at a frenzied pace which promised a 9,000,000-share day, as contrasted to the March 26 record of minutes behind the market, but the fillood of selling began to ebb in the fatternoon, and the day's turnover totaled but 6,091,870 shares. This was the largest turnover since the March 27 shared hit, and the motor and motor and forty minutes after the close, while of selling on the Stock Exchange, and the list included such prominent issues as General Mofors, Montgomery Ward, Sears-Roebuck, Kennecott Copper, Electric Auto Lite, National Power & Light, Packard and United Copporation. Disturbing rumors that Jesse Livermore, formerly a leading market operator, was heading a huge bear pool, were denied by Mr. Livermore as absurd.

Credit conditions were not a factor in this market, owing to the scant demand for funds. Loans renewed at 6 per cent, but soon dropped to 5. Time money was somewhat easier. There was practically nothing in the day's rather meager industrial news that the market had time to consider. A few good earnings statements appeared, and the week-end reviews, while in ating considerable curtailment of activity in heavy industrials, generally emphasized underlying stability.

Leaning on the Lever

The old Lifting principle as applied by Modern Management

THE most interesting fact about Modern Management is that its logic is as old and as so as the hills.

With Archimedes, 2000 years ago, it says, today, "Give me a place to stand, and the right levers, and I will move the world."

With vision, based on dependable facts and figures, Modern Management makes for itself the "place to stand." And it leans on its levers. With sound Organization, Research, Budget Control, System, Order, it lifts with ease and precision its ever-increasing load of greater and greater accomplishment.

To assist Management in the right selection of these most effective tools of business is the service of Modern Accountancy. It contributes the resources of specialized knowledge and experience to developing the lifting, saving, economic practice of "leaning on the lever."

The boat that had attracted Jane's attention as she stood guard upon the Kincaid's deck was also seen by Rokoff and by the beasts of Tarzan on the opposite river bank. At the Russian's shouts the little craft turned shoreward and, after a short parley with him, steered directly toward the Kincaid. Be fore it had gone halfway, however, a rifle spoke from the ship's deck, and a sailor in the bow of

the girl's rifle, the boat put back to shore, there to wait for nightfall. Jane realized this would be but a temporary respite for her, and so determined to make a bold and final stroke for freedom. Calling the two sailors she had imprisoned in the castle, she forced their consent to her plans. With revolver ready to compel obedience, she let them come above deck.

Then she set them to work cutting the cable which anchored the Kincaid. The ship was well stocked with provisions and water, the season of storms was over, and she hoped that by drifting into the open sea the Kincaid would eventually be sighted by some passing vessel. The night was deeply overcast, a perfect one for her purpose. Her enemies could not see the activity aboard or know the ebbtide was carrying the ship seaward.

By Edgar Rice Burroughs

As the last strand of the cable parted the Kincaid drifted rapidly with the current. Then suddenly up the river came the rattle of musketry and a woman's scream! Startled, Jane for a moment was thrown off guard. The two men instantly leaped upon her and bore her to the deck. Was her strug-gle for freedom to fail after all? As she fell Jane saw, outlined against the gloom of the ocean, the figure of another man clamber over the Kincaid's

Detroit, Mich., October 21.-(A)-(P)—Officers tonight had made little progress in their search for the persons who dynamited a forty-foot secof the west Dixie highway last at air tour that ended in the rain ght to release impounded waters and mud at Ford airport this afternoon, was officially announced tonight

been farmers residing in the New river as the winner of the 5,000-mile flight. drainage district, used nine boxes of explosive to tear out the highway embandment which served as the winner of the 5,000-mile flight. Livingston, on the basis of speed, maximum load and efficiency in takbankment which served as a dyke to hold water from recent heavy rains.

Tonight waters swirled through the opening like a mill race and were finding release to the Atlantic through the New river, which empties below the city.

County officers said about 500 persons have been forced to evacuate their homes in Everglades farmlands where rainwater stood from five to six feet deep. It was believed force was resorted to in order to hurry drainage of the section and permit resumption of farming operations.

The officers explained that the roadway, which borders the flat Everglades lands, had no culverts capable of taking off the water. Last Saturday engineers opened a small gap in the road, in an effort to drain off the water.
